

Compact Roller Peeler R-OW-Mini-A

A New Compact DORNOW Roller Peeler Called "R-OW-Mini-A" Was Born!

Its general dimensions (l x w x h): abt. 3800 x 1200 x 3000 mm. We should be able to trim the height a little more, if required!

"R-OW-Mini-A" has got all essential advantages of its "elder brothers"! Without having to drink or evacuate water, it peels potatoes, carrots, even celeriac, kohlrabi, parsnips etc.

The capacity of the compact machine: approximately 300 to 750 kg/h of finished products in standard quality, depending on raw material and desired degree of cleanness.

Our "latecomer" can also be equipped with the new micro fine-grain rollers which provide for a super-smooth peeling.

You can also buy this "wonder child". Its introductory price is especially favourable!

Act quickly if you want to acquire a "wonder child" at optimal conditions.

By the way: "R-OW-Mini-A" has elder brothers. They can be bought or leased, too.
